

Energy Management

1-day course

This course provides tuition for

BIFM level 4 qualification unit FM4.20

BIFM level 5 qualification unit FM5.20

See 'Professional Recognition' section below for details

Aim

“Cost effective ways to reduce energy bills”

With rising energy costs and the threat of global warming, the spotlight is on energy use. Energy management provides practical and cost effective ways to tackle these issues, improving energy performance. The FM plays a central role in implementing sustainable solutions to achieve better performing buildings. How do you get an energy efficiency campaign rolling? What specific measures can you implement? How do you measure your energy performance and has it actually improved? Good practice in the management of energy consumption can also result in positive recognition for the FM, through innovative cost savings and support of key social issues.

Course content

- Developing an energy policy
- Introducing an energy efficiency campaign
- No-cost & low-cost measures for buildings
- Integrating measures into the building
- Implementing energy saving measures
- Using building log books
- EPBD, asset ratings & operational ratings
- Measuring energy performance
- Energy Compliance

Programme

09.30 Introduction

10.00 Why save energy?

10.45 Developing an energy policy

11.00 Introducing an energy efficiency campaign

11.15 Tea and coffee

11.30 No-cost and low-cost measures for buildings

12.30 Integrating measures into the building design

13.00 Lunch

14.00 Implementing energy saving measures

14.15 Raising staff awareness

14.30 Using building log books and sub-metering

15.00 Tea and coffee

15.20 Measuring energy performance through monitoring & targeting

16.00 Part L, EPBD, asset ratings and operational ratings

16.30 Close and departure

Professional Recognition

Delegates receive a Quadrilect Ltd certificate of attendance which contributes towards their record of CPD [Continuing Professional Development].

This course provides tuition for

BIFM level 4 qualification unit FM4.20

BIFM level 5 qualification unit FM5.20

'Energy Management' is accredited to provide part-tuition for BIFM level 4 qualification unit FM4.20 and BIFM level 5 qualification unit FM5.20. Please note that these units **alone** do not constitute complete qualifications. Please contact us on 020 7248 5942 or email info@quadrilect.co.uk for a qualifications brochure and further guidance on enrolment.
